

ROTORAKE TM1000

combined de-thatcher and linear aerator with collection

FEATURES

Floating unit to follow ground contours

Fast ground coverage

Quick, simple depth setting without tools to max. 50mm

Contra-rotation of reel throws debris forward for clean, consistent groove

Standard Cat.1, 3-point linkage

Collector box for use when working to depth of 25mm

Optional hydraulic tipping kit

When used without collector box, scarifying unit can be offset so that wheels do not run over the removed thatch.

SPECIFICATION

Model Ref:	RRTM/1000	
Overall width	143cm	56ins
Working width	1m	39ins
Length	156cm	61ins
Height	74cm	29ins
Weight (incl box)	263kg	578lbs
Rec. tractor size	19kw	25hp
PTO	540rpm	
Approx ground coverage	1000-2500m ² /h 1250-3000sq.yds/hr	

An average golf green can be scarified in approx. 10-15mins at a depth setting of 8mm, depending on amount of thatch removed and the number of times the box is emptied.

The independently powered SISIS ROTORAKE 600 took de-thatching into a new dimension and the ROTORAKE TM1000 is the tractor-mounted, PTO version for larger areas.

Interchangeable blades and optional variable spacing:

Blades	Ref.	Spacing	No of blades required	Usage
2mm Tungsten Tipped Fitted as standard.	F36106	30mm	32	Scarifying.
<i>Also recommended:</i>				
1mm Tungsten Tipped	F36608	18mm	55	Light scarifying
3mm Tungsten Tipped	F36231	30mm	32	Deep scarifying & linear aeration,
or seedbed prep.				
1mm Verticutting	F36232	30mm	32	Verticutting during playing season

Extra 6mm (F36210) and 12mm (F36235) rubber spacers are available for variable spacing.

If you would like technical advice, your SISIS Territory Manager will be pleased to help.

SISIS has a direct supply policy in the UK, Export Distributors in more than 30 countries worldwide, and subsidiary company SISIS INC in USA.

National and International spares and service network. Various finance packages are available.

SISIS equipment is designed and manufactured in the UK. Patents granted or applied for UK and overseas. All SISIS equipment satisfies current European Health & Safety regulations for safe operating, vibration and noise levels.
